PROJECTS

Chat Application: The chat app features an intuitive and responsive UI with chat rooms, message threads, and user profiles.

- Designed a chat app using Next.js for the frontend, Chat Engine API for real-time messaging, and Firebase for user authentication and data storage, ensuring a seamless user experience.
- **Tech Used:** Next.js, Chat Engine API, Firebase

Personal Portfolio: The website features a Header with a logo and introduction, an About Section with a bio and image, Skills showcase, Projects display, Resume download link, Contact information, and Footer with copyright details.

- **Tech Used:** HTML, CSS, JavaScript
- **Demo:** `https://kumar-gourav-01.github.io/Portfolio`
- **Source Code:** `https://github.com/kumar-gourav-01/Portfolio`

To-Do List: The app boasts a user-friendly interface for effortless task management, featuring confirmation dialogs to prevent inadvertent task deletion or editing.

- **Tech Used:** HTML, CSS, JavaScript, Local Storage
- **Demo:** `https://kumar-gourav-01.github.io/To-Do-List`
- **Source Code:** `https://github.com/kumar-gourav-01/To-Do-List`

Calculator: A user-friendly calculator app with buttons for basic operations, responsive design for desktop and mobile, and instant results display.

- **Tech Used:** HTML, CSS, JavaScript
- **Demo:** `https://kumar-gourav-01.github.io/Calculator`
- **Source Code:** `https://github.com/kumar-gourav-01/Calculator`
