Sarvodaya Boys Senior Secondary School No.1 - Sarojini Nagar, New Delhi

2021-12 - 2025-08

Bachelor of Technology: Information Technology
USICT, GGSIPU - Delhi

Project

E-Commerce Website
As a skilled web developer, I have experience creating websites using HTML, CSS, and JavaScript. For example, I recently designed and developed a responsive website using these technologies, showcasing my ability to create visually appealing and functional web pages.

To create the website, I began by structuring the content with HTML, including headings, paragraphs, and links. Then, I added styling using CSS, setting the colors, fonts, and layout of the page. Finally, I added interactivity with JavaScript, such as image sliders and contact form validation.

Throughout the development process, I thoroughly tested the website across different browsers to ensure optimal performance and user experience. The end result was a professional and user-friendly website that exceeded client expectations.
